ABOUT IREC CORPORATION

International Recreation Corporation designs, manufactures and installs quality indoor playgrounds and family entertainment centers catered specifically to the Asian market. We pride ourselves on our innovative designs and quality products that meet quality specifications with safety as a top priority. We incorporate fun and playability as core elements in each of our installations, while remaining keenly aware of the need to deliver world class customer service at all times.

Our brand has grown to signify innovative products and we've built a reputation for service and professionalism with operators of various family focused businesses, ranging from day cares to schools to restaurants to shopping centers to stand alone family entertainment centers and beyond.

INDOOR PLAYGROUNDS

INDOOR PLAYGROUNDS

Playgrounds are modular play structures for children and may be customized for each single activity or event. Personalized consultation and design are core prerequisites necessary for making a perfect playground for any environment. Our team of industry experts are available to satisfy your project's needs and to create a structure that is functional and full of fun activities.

LITTLE TOWN

TODDLER PLAY

Little Town™ is a child sized city created to include familiar businesses and buildings within typical communities. Cities and communities are built and rely on the various services and providers to keep them vibrant! Little Town™ promotes hands-on experiential learning and edutainment for children to learn how people live and work together to create a city that thrives. Children will have the opportunity to role play different occupations and practice everyday life skills.

Toddlers need a fun, but safe environment, which is why iREC has developed an extensive line of Toddler Play, where children can play and interact with others, while parents relax as their children remain safe and secure, in a fun, stimulating environment.

INTERACTIVE PLAY

THEMING

Our Interactive Play products include Climbing Walls, 3D Mini Golf, Laser Tag Arenas, Sports Courts, Obstacle Challenges, Interactive Floors, Specialty Slides, and many more where the whole family can come and enjoy.

Have a concept in mind? iREC can manufacture custom-made indoor playgrounds that fit the theme you have in mind, be it space, race track or superhero, iREC can do it all. We can help you develop the concept that suits your needs, and do the installation.

AIR TREK

Fun and exciting, but safe, our AIR TREK obstacle adventures provide a series of challenges that test the player's skills, all while remaining focused on activities fit for the whole family. Safety is top priority as participants are tethered via a safety harness designed to hold even large adults safely.

BALLISTICS

We have also developed an exciting form of interactive fun – our Ballistics Play systems.

We can combine lights, sounds and movement to develop an interactive arena fit for all ages. Both children and adults can partake in this type of play where they can focus on a specially themed target or have a friendly battle with fellow participants.

TUFF STUFF

Tuff Stuff (TM) products are highly durable, sculpted soft foam play components that have a smooth, gelatinous finish which is naturally antibacterial. Add in a themed carpet, safety flooring, padded seating and walls, play panels, shoe keepers and rules signage and you have the ultimate interactive play experience that is safe, healthy and fun. Custom designed to meet any theme or budget.
Easy to clean - Eye catching designs - Fun and Safe
Ages 6 months to 6 years

NEW PRODUCTS

We have a wide range of new products such as ninja course, trampolines, ToYouBand, facility furniture interactive wall and floor systems, Tuff Stuff and bulls eye bounces providing hours of entertainment for the whole family to enjoy. Our products are safe and fit diverse venues, such as FECs, hotels, and other commercial areas.

SAFETY

Our play structures meet or exceed all standards set forth by the American Society for Testing and Materials (ASTM) and we are a member in good standing with the International Playground Equipment Manufacturing Association (IPEMA). We also comply with TUV America, Standard Safety Performance Specifications for Soft Contained Play Equipment (F1918-98), European Committee for Standardization (CEN), Consumer Product Safety Commission Guidelines, Royal Society for the Prevention of Accidents (RoSPA), and Canadian Parks and Recreation Association (CPRA) guidelines for playground safety. The equipment included in all IREC designs has been developed and tested for appropriate flame and smoke spread ratings and is extremely rugged and durable to meet a variety of usage conditions. We are proud of our safety record, and we have CPRA Certified Safety Inspectors on staff.
